

## TOKHEIM QUANTIUM™ 110 ADBLUE® FUEL DISPENSER

# Reducing harmful emissions

The Tokheim Quantum™ 110 AdBlue® fuel dispenser is durable, dependable and cost effective. Its simple design means it's easy to use and maintain, making it a must-have on today's forecourts.

AdBlue® is a non-toxic, colourless fluid specifically designed to improve the environmental efficiency of diesel vehicles, substantially reducing harmful emissions being released into the environment. The compact Quantum 110 AdBlue® fuel dispenser helps support modern diesel engines to conform to the Euro IV, Euro V and Euro VI emission standards.

## Tokheim Quantum 110 AdBlue® fuel dispenser

### *Facilitating Change*

The modest Quantum 110 AdBlue® fuel dispenser is suited to basic truck stops and small fleet depots, facilitating fast, reliable and accurate dispensing. Its pump and meter have been designed to handle the corrosive AdBlue® solution. Although considered an entry-level dispenser, this economical, one nozzle model also benefits from the same high-quality finishing as the rest of the Quantum family.

Available Grades: 1

Available Nozzles: 1 (standalone)

Available Flow Rates: LV and HGV

Hose Management: Springmast

Nozzle Reach: 3.8m

Dispenser Orientation: Island (single sided)

Display Options: 6-6-4 LCD

Automatic Temperature Compensation: Available as option

Customised Livery: Yes
